

GRAFTYP

makes you stick

Graftyp, your sustainable partner

At Graftyp, we care about the planet, our products and our people. We are constantly looking for new ways to make our organisation even more sustainable. Discover below how we aim to reduce our ecological footprint:

Graftyp's sustainability initiatives

Products

- PVC-free films (GEF)

Materials management

- PVC-free waste = 100% recycled
- Separate waste streams

Energy

- 1,222 energy-efficient solar panels
- ↓ 40% CO² emission
- ↓ 40% energy consumption

Mobility

- Electric company cars
- Bicycle leasing plan

Supply chain

- Recyclable packaging
- FSC-certified cardboard
- Simultaneous shipments

Water

- No wastewater discharge
- Reuse of rainwater

Do you want to work in a more sustainable way? Graftyp is your sustainable partner!

More and more companies are striving for sustainability. At Graftyp we stand behind it 100%. We want to support you in making your visual communication more sustainable.
