

GRAFTYP

makes you stick

PVC-free films

At Graftyp we care about the environment, our products and our people. We are **your sustainable partner** in visual communication. These are not just empty words, we live up to these promises. With the expansion of our **PVC-free products (GEF)** we want to offer a sustainable alternative to our current range.

The advantages of our PVC-free films

PVC-free

Solvent-free adhesive

Considerably reduced CO₂ emissions

Phthalate-free

100% recyclable

Significantly less electricity

No plasticisers

REACH conform

Virtually no natural gas consumption

Chlorine-free

Fire certificate B1

No harmful substances during combustion

All our PVC-free films are tested and certified.
